DEPARTMENT OF  
ENVIRONMENTAL MANAGEMENT  
OFFICE OF LAND QUALITY

Subject: Second Notice of Comment Period

Dear Ms. Pittman:

1. Any CFO that has a discharge into waters of the State should be required to Enter the CAF/CAFO program.
2. Public hearings are important and should be continued in the rules.
3. Your wording mentions professional engineer. Engineers should be required to be licensed in the state of Indiana.
4. A person proposing ownership by transfer of facilities should be required to meet the Good Character rules.
5. Setbacks are not sufficient from property lines and public roads.
6. We agree with the new rules that waste/manure cannot be applied to frozen or snow covered ground and/or saturated ground. We also agree that no application on acreage with a phosphorus level over 200 ppm.
7. Operators should be required to submit reports on manure applications to IDEM twice a year. Operators would identify their land application sites and in December they would report where, when, and how much manure they apply. This information should be posted to the VFC.

Sincerely,  
Allen and Judy Hutchison
